| <ul style="list-style-type: none"><li>– Worked as a <b>Frontend Developer</b> for 7 months, developing and maintaining production-level partner portal interfaces.</li><li>– Built responsive UI components using <b>TypeScript</b> and <b>Material UI (MUI)</b> to enhance usability and performance.</li><li>– Implemented key modules including <b>Dashboard UI</b>, <b>Profile Page</b>, and partner workflow components.</li><li>– Collaborated with backend teams to integrate APIs and ensure secure and error-free frontend communication.</li><li>– Performed testing and debugging to remove console logs and prevent sensitive data exposure in production responses.</li></ul> |                                             |

## Projects

### E-Lenden Mobile Application | *React Native*

- Developed a **frontend-only mobile application** using pure React Native for managing lender and borrower interactions.
- Designed intuitive UI components to allow shop owners to list items and borrowers to request lending services.
- Implemented responsive layouts and reusable components to ensure smooth navigation and user experience.

### Dog Accessories E-Commerce Platform | *Node.js, React.js, Tailwind CSS*

- Built a full-stack **e-commerce platform** for selling dog accessories and products.
- Developed backend APIs using **Node.js** to manage product listings, user interactions, and order workflows.
- Created responsive frontend interfaces using **React.js** and Tailwind CSS for enhanced user experience.

### Spotify Clone Music Streaming App | *React.js, Backend APIs, Render Deployment*

- Developed a Spotify-inspired music streaming interface capable of playing songs dynamically.
- Integrated backend APIs hosted on **Render** to fetch and stream music content.
- Implemented seamless API integration and UI controls for smooth music playback functionality.

### Company Partner Portal Frontend | *TypeScript, Material UI (MUI)*

- Managed and enhanced the frontend of a production-level company portal using **TypeScript** and Material UI.
- Developed UI components such as dashboards, profile pages, and partner management modules.
- Ensured clean UI implementation and maintained secure frontend workflows across multiple modules.

## Technical Skills

**Languages:** Java, JavaScript, SQL, MongoDB, React.js, React Native, TypeScript, Tailwind CSS

**Backend:** REST APIs, Spring Boot (learning), Node.js

**Databases:** MongoDB, MySQL

**Core CS:** Data Structures and Algorithms, OOP, DBMS, Operating Systems

**Tools:** Git, GitHub, Postman, VS Code, Claude AI , AWS
